YOUR FAMILY GUIDE
TO CREATING A MEANINGFUL *Life Celebration*.

A *Life Celebration*® is a time for
family and friends to share
memories of a life well-lived.

It can be a comforting reminder
of the impact we have on each
other's lives and how we are truly
connected.

We encourage you to use this time
to help share the story of the life
your loved one lived.

We ask you to help us help you by sharing meaningful
thoughts about those things that are most important to
you and your family in this guide.

We have found that pictures are a way to not only share
meaningful information, but also a way to accurately
depict and share one's life story. Please gather 25-30
pictures that represent a life well lived.

This is a healing activity that you can share with family
and friends.

Your *Life Celebration* **Memories Collection** is as unique as the life it honors, specially co-created with your family. It is your opportunity to share all the wonderful things that made your loved one special. Sharing precious memories with your family and friends will help begin the healing process.

Your *Life Celebration* **Meaningful Tributes** may include photographs, memorabilia, shared memories and activities that acknowledge their unique nature and what this person has meant to others.

Your *Life Celebration* **Collages** are a time capsule of memories and a wonderful way to tell a story! Sorting through photos provides an opportunity for family and friends to remember, laugh, cry and reflect on special moments.

Your *Life Celebration* **Memory Tables** provide an opportunity to place special mementos and memorabilia in a setting that reminds you of home or a special place that holds fond memories.

Your *Life Celebration* **Music** can be whatever you want! Music can help celebrate tradition, heritage or religious preference or incorporate your family’s preference of jazz, country and/or modern music. Whatever your preference, we can assist.
